Project	% Complete	Comments
Establish 1,000 lbs Single Origin Coffee Plantation Delivery from Honduras: We continue to work with local farmers to produce beans from Honduras. We are currently at 400 lbs delivered.	40%	This is an example of a Project Comment Submitted: Jun,15,2019 09:15 PM
Repair Coffee Roaster #3: Coffee Roaster #3 malfunction identified as faulty heating element. New element is being manufactured.	10%	
Design New Coffee Cup Logo: Coffee Cup Logo is in the final revision stages before being sent to manufacturer.	85%	I skipped Project 2 and am now commenting on Project 3. Submitted: Jun,15,2019 09:15 PM
Increase Milk Deliveries to Temecula Coffee Shop to Three Times a Week: In second round of negotiations with local dairy farmers on delivery fees for milk.	60%	
Decrease Caffeine Content of Decaf Coffee: We honestly don't even know where to begin with this. We tried straining the brewed coffee but it had no impact on caffeine content.	0%	This is an example of a longer comment. The quick red fox jumps over the lazy dog.
